SAHIL KEWAT

kkewat315@gmail.com | +91 7798523996 | GitHub | LinkedIn | Portfolio | Pune

PROFESSIONAL SUMMARY

Information Technology undergraduate (CGPA: 8.60) with hands-on experience building multi-agent AI systems, machine learning pipelines, and scalable backend applications. Experienced in developing end-to-end solutions using Python, Java, Spring Boot, LLMs, NLP, REST APIs, and blockchain technologies, with a strong foundation in software engineering, automation, and intelligent systems. Passionate about building reliable AI infrastructure, developer tools, and production-ready software that scales.

TECHNICAL SKILLS

Programming: Python, Java, SQL, JavaScript, Data Structures & Algorithms, OOP

AI Engineering: Machine Learning, Deep Learning, NLP, LLM , Prompt Engineering, Agentic AI, Multi-Agent Systems,, Langraph, Langchain, N8N

Backend Engineering: Spring Boot, FastAPI, Flask, REST APIs, Microservices, API Integration

Data Engineering: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Data Processing, Feature Engineering

Infrastructure & Tools: Docker, Git, Linux, GitHub Actions, Firebase, Jupyter Notebook,AWS, Qdrant Cloud

Databases: PostgreSQL, MySQL, MongoDB, Firebase, Supabase, Cassandra, Qdrant cloud

Python Development, Flask, Backend Development, Database Integration, JSON, API Development, Web Scraping, Automation, Debugging, Testing

PROFESSIONAL EXPERIENCE

Ai Engineer Intern | GaoTek Inc. May 2026 – Jul 2026

- Built an end-to-end **AI-powered web scraping and automation pipeline** using **Python, n8n, REST APIs, and LLM integrations**, automating data collection and processing workflows.
- Reduced manual data extraction effort by **~80%**, saving **15+ hours of repetitive work per week** through automated scraping, validation, and workflow orchestration.
- Developed and maintained **20+ automated n8n workflows**, improving operational efficiency by **~60%** while ensuring reliable execution and minimal downtime
- Integrated **MySQL, Firebase, and REST APIs** for seamless data synchronization across automation workflows.

PROJECTS

Octopy – ML Evaluation & Reporting Tool GitHub

- Engineered an automated ML evaluation platform supporting **10+ machine learning algorithms**, reducing manual model assessment time by **~70%** through automated benchmarking and reporting.
- Built end-to-end preprocessing, feature engineering, training, and evaluation pipelines using **Python, Pandas, NumPy, and Scikit-learn**, improving experimentation efficiency by **~40%.**
- Developed a modular reporting framework generating performance metrics, hyperparameter summaries, and visual insights, enabling reproducible model comparison across datasets.

Orqestra - AI Workflow Orchestration Platform GitHub

- Engineered an AI workflow orchestration platform integrating **LLMs, n8n, and REST APIs** to automate multi-step business processes, reducing manual effort by **~75%.**
- Built reusable automation pipelines with intelligent routing, API integrations, and event-driven execution, improving workflow efficiency by **~60%** across repetitive tasks.
- Developed a scalable orchestration framework with real-time monitoring, error handling, and execution logging, enabling reliable end-to-end automation and easier workflow maintenance.

CreatorJoy – AI-Powered Video Intelligence Platform GitHub

- Engineered an AI-powered video analytics platform using **FastAPI, LangGraph, Qdrant, and LLMs**, enabling semantic search and natural language querying across **100+ video transcripts.**
- Built an end-to-end **RAG pipeline** with transcript extraction, chunking, embeddings, and vector search, improving information retrieval accuracy and reducing manual content discovery time by **~70%.**
- Developed a streaming conversational interface with citation-backed responses and real-time retrieval, delivering low-latency insights from long-form video content.

EDUCATION

G. H. Raisoni College of Engineering and Management, Pune 2023 – 2027

B.Tech., Information Technology | *CGPA*: 8.58

Relevant Coursework: Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems, Software Development, ML, DS, DL

ACHIEVEMENTS & LEADERSHIP

1st Place – ABAJA Competition (Adaptive Cruise Control) *Jan* 2025 – *Oct* 2025

Team Manager - Team Abhyuaday Racing *Feb* 2025 – *Oct* 2025
