## EDUCATION

G. H. Raisoni college of engineering and management, *Pune* — *Jun 2023-Jul 2027*
B.Tech in Information Technology — *cgpa - 8.6*

## SKILLS

Python, SQL, Machine Learning, Data Cleaning, Analytics, Statistical analysis, Data Visualization, JavaScript,

Databases(SQL, Casendra, Firebase, Supabase), Web3, Blockchain, Web Scraping,

## CERTIFICATIONS / COURSES

**Data Science & Machine Learning :** *Coding Ninjas* — Jun 24 – Jan 25

**100 Days of Code complete Python Bootcamp :** *Udemy* — Feb 24 – May 24

**Advance Databases and SQL Querying :** *Udemy* — May 24 – Jun 24

## PROJECTS

**Octopy: Automated ML Model Reporting and Evaluation Tool** — Dec 2025

- Developed an automated ML model evaluation pipeline that generates performance reports with hyperparameters, metrics, and visual insights.
- Implemented model serialization and reporting features using Python, enabling seamless testing and deployment.

**Git-Lane : Offline-First Distributed Mobile Git System** — Jan 2026

- Built a React Native app with a custom VS Code extension enabling QR-based LAN transfer of Git repositories without internet.
- Implemented offline commit and automatic push synchronization using local storage and connectivity-based background sync.

**Blockchain-Based Anonymous Whistleblower Protection System** — Feb 2026

- Built a decentralized platform using Ethereum and IPFS for anonymous, encrypted evidence submission with immutable on-chain verification.
- Implemented smart contract-based access control and integrity validation to ensure tamper-proof data and secure investigator access.

**The Monitor – Real-Time Market Intelligence Platform** — Mar 2026

- Built a real-time system that converts global news into structured events and derives probabilistic market impact using NLP and historical pattern analysis.
- Developed a scalable full-stack dashboard with live data streams, vector search, and an interactive 3D globe for financial intelligence visualization.

## ACHIEVEMENTS

- Abaja 2025 Winner as Team manager
- 9x Hackathon Finalist
